

DO ~~NOT~~ TRY THIS AT HOME

ISSUE #6

Featuring: **Marvin and Milo**

What you need: • a large glass • lemonade (or fizzy water) • peanuts (or raisins)

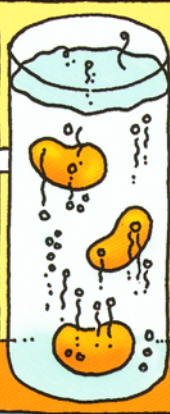

Today we are going to make a simple lava lamp.

First, fill the glass with lemonade.

Stir for 1 min or leave to go slightly flat.

Drop some peanuts into the glass.

The nuts float up to the top and fall back down again, like in a lava lamp.

Gas bubbles grow on the peanuts, making them float upwards. When they reach the top the bubbles burst and the peanuts fall back down again.

Groovy, baby.

Vic Le Billon
