

# Fill it up

**What you need:** Six socks and two pots

## How to play:

- Players have one pot each that they place 6m apart. Place six socks in the centre.
- Players start at their pot and run to the middle, taking one sock back to their pot. Continue until there are no socks left in the middle, then run to your opponents pot to collect one sock at a time.
- Who is the first to have 5 socks in their pot?
- Playing by yourself? From a pile of socks 6m away, how many can you get into your bucket in 1 minute?

**Take small steps so that you can change direction quickly.**
