

Print this and give one to your pupils to take home

Home base 1, 2, 3

People: 2 or more

How to play:

- One person starts at a home base and counts to 60.
- All other players hide.
- Once the counter has finished counting they attempt to find the players who are hiding.
- All players who are hiding attempt to get back to the home base without being tagged by the counter.
- If they make it back to the home base, they shout 'home base 1, 2, 3.'
- The first player caught by the counter becomes the counter on the next round. If all players successfully make it home without being caught, the same counter counts again.
